Tech Skills

Typescript, Javascript, React, Redux, SQLite, React Native, Jest, React Testing Library, Mocha, Chai, Enzyme, Express, Node.js, SQL, Git, HTML, CSS, Storybook

Work Experience

Front-End Software Engineer • National Basketball Association (NBA)

April 2023 - present

- Led the All-Star Voting initiative as Tech Lead for 2+ years, guiding a 4-person engineering team through a full product overhaul and strategic API integration aligned with product goals
- Contributed to the development of the Dynamic Badge microsite by architecting the foundational framework, integrating secure authentication, and designing the initial user interface
- Integrated Amplitude Experiment from scratch into the codebase to support A/B testing
- Supported the implementation of block-editing on the purchase page, replacing the legacy design with a modular, component-driven structure
- Leads the Developer Experience initiative, driving improvements across teams and platforms to streamline workflows, enhance tooling, and foster cross-functional collaboration

Associate Software Engineer • Cengage Group

September 2021 - April 2023

- Created and maintained new features for the MindTap School platform, working in an agile team
- Collaborated with the design and product teams to create 20+ reusable components for a new internal library, and subsequently integrate them into legacy code
- Integrated an industry-standard assessment API into legacy code, which was put into production
- Wrote comprehensive unit and integration tests to ensure code performs as expected and avoid regressions

Team Lead Brand Ambassador • Uptime Energy

June 2019 - March 2020

- Engaged prospective customers during events, contributing to new leads for the sales department
- Acted as an intermediary between the brand ambassador team and the field marketing manager
- Conducted weekly inventory within Google Sheets to maintain full stock of the product
- Transported up to 60 cases/day to multiple locations throughout New York City

Principal Production Cast Singer • Norwegian Cruise Lines

October 2018 - March 2019

- Performed up to 7 main-stage shows per week in addition to daily rehearsals
- Created, choreographed, and performed in a cabaret show for each cruise, including 5 performers
- Provided guests with an engaging experience offstage through live Q&As and backstage tours
- Responded calmly to problems onstage and backstage to maintain the integrity of each performance

Projects

Jeopardy Scorekeeper • Full-Stack Developer

Ongoing

Your new favorite scorekeeping app for at-home Jeopardy: sleek, simple, and fun.

Stack: React Native, SQLite, Expo

Education

Grace Hopper Program at Fullstack Academy • NYC

October 2020 - February 2021

17 week immersive centered on full-stack Javascript web development

Point Park University • Pittsburgh, PA

September 2014 - April 2018

BFA Musical Theatre
